

**THIS HEALTH AND PENSIONS CALCULATOR IS ALSO NOW
AN INTEGRAL PART OF THE
SALARY SHEET SYSTEM**

**The Personal Contribution amounts for the various Health Benefit and Pension Plans
have been incorporated as a separate page into your standard
Salary Sheet Processing System**

**Under the Button Titled “Compensation Report” is One Titled “Individual Summary”
That brings up a screen that shows all the personal plans in which you can enroll
And the personal amounts for which you would be responsible.**

This is the same information that is shown on the Excel Spreadsheet.

**Since some users want to experiment with several “what if” examples,
the spreadsheet is also included to support those efforts.**

You can print the same information directly from the Salary Sheet if desired.
